

Shevlin Lodge

Floor Plan

Every SolAire Home comes standard with our “SolAire Silver” feature package. This unique approach integrates the essence of Central Oregon lifestyle with energy saving technologies. All of our homes are designed to combine comfortable and healthy living spaces with energy saving measures that ensure lower long-term energy costs and higher re-sale value. Please call one of our experienced home planners today for a free consultation about this and/or our other custom homes, all of which are designed to be built on your land. **The Shevlin Lodge is designed as an upgraded SolAire Gold Package.** Be sure to ask about upgrading to our Platinum Package for an even higher level of top quality finishes and green building features.

Special Features Include:

- 2695 sq ft One Story, Passive Solar Home
- 3 bedroom, 2.5 bath
- Open living / dining / kitchen
